MY SKILLS

I am a hardworking and reliable individual who takes pride in my work and adapts quickly to challenges. I am confident working both independently and as part of a team, handling pressure well while remaining organised and meeting deadlines.

My strong communication and interpersonal skills have been developed through roles such as school sports ambassador and council member, where I gained experience leading events and working with a wide range of age groups.

I am a keen sportsperson, currently playing rugby for Oak Medians RFC and previously training in Muay Thai for 10 years. These experiences have strengthened my teamwork, discipline, and physical resilience, making me well-suited for roles that require both collaboration and individual initiative.

WORK EXPERIENCE

Cumberland/ Oceana Hotel- May 2024- February 2025

I was eager to work at this company and had always strived to complete my duties to the fullest. This job taught me how to work in a team and taught me customer service, cash handling and team communication skills. It also trained me to be able to work well under high pressure environments.

Heathland's primary school- February 10th - February 14th

I had done a week of work experience at my primary school to explore and expand my connections and career paths. During the week I had been given more insight into the work world. I worked with a Year 1 class, in this class I has supported in teaching basic maths, English, science, reading lessons to small groups of children. This week taught me how to be able to handle more intense situations with younger children and how I should approach them.
